TSA Travel Information

The TSA has determined that liquids, aerosols and gels, in limited quantities, are safe to bring aboard an aircraft. When packing, please follow these guidelines:

- All liquids, gels and aerosols must be in 3.4 ounce (100ml) or smaller bottles.
- All containers must fit in one quart-sized, clear, plastic, zip-top bag.
- Each passenger is allowed only one bag.
- Each bag must be placed in its own screening bin and X-rayed separately.
- If you are carrying on large amounts of prescriptions, liquid medications, baby formula, and/or diabetic glucose treatments, you must declare these at the security checkpoint.

Arrive at the airport early. Enhanced security measures may mean longer lines at security checkpoints. This new security policy applies to all domestic and international flights departing from U.S.
We always recommend checking the TSA Web site (www.tsa.gov) for the most up-to-date information about security procedures. If you are departing from a non-U.S. airport, be sure to check that airport's security policies and pack accordingly.
